

# The logical, versatile, clean, energy for garden centres

Do you feel your garden centre is paying too much for its energy?

Three good reasons why you should consider switching to Calor:

- We can save you money-A number of flexible pricing options to suit your budget
- We can provide a secure and reliable supply-Remote monitoring of gas levels whatever the weather, giving you a continuous supply of clean burning Calor LPG
- We can do it all- Complete engineering solutions and customer support 24/7, 365 days a year

Put some **CALOR** in your life

For more information about heating your garden centre call Calor on **0800 022 4167** quoting “RST” or go to **www.calor.co.uk**

## Calor

*Please tell your buyer in this category about RST. Sharing = more growth*

**Bulk Gas Supply – LPG is environmentally cleaner and cheaper than electricity or oil!** Don't let no Gas main nearby put you off. Bulk tank installation has low setup and running costs. Contact us for a site visit to quote for a bulk tank installation quoting “RST” Go Gas and show your green credential!

**Bottled Gas – virtually every household needs bottled gas!** Margins on bottled gas are typically 30-35%. Stock value is approximately £500.00 (cylinder size dependent) Garden Centres are becoming the most popular place to exchange bottled gas. If not already a stockist, contact us for more details. Good rates for RST members, good margins available.

**NEW Calor Gas Accessories - Gas fuelled BBQ's, Patio heaters, portable room heaters & all the accessories to go with them.** To sit alongside our bottle gas we have developed a comprehensive range of appliances and accessories for your garden centre and customers. You will receive a seasonal brochure which will show the products available, competitive prices and great RST Member rates.

**Calor: Providing the full LPG solutions for you and your customers.**
